AFRODITE 2

Ladder with a double-rail
for heavy duty!

LADDER WITH A DOUBLE-RAIL

The professional ladder for heavy duty!

Afrrodite 2 is aluminium professional ladder with a double-rail. Its strong and stable structure combined with the lightness of aluminum allow it to be the ideal ladder for heavy duty.

Has a handy storage tray, a large step no skid surface, sidebar anti-closure, reinforcement on bottom at the base foot anti skid rubber. The latter guarantee greater adherence to the support surface.

Available in different heights (from 5 to 14 steps) the scissor ladder **Afrrodite 2** is a safe and comfortable working tool usable in internal and external environment.
