EFESTO at MIR – Music Inside Rimini 2018

Our presence, your confirmations: THANKS!

Efesto thanks all those who contributed to its success at "MIR - Music Inside Rimini" from 6 to 8 May at **RiminiFiera - Expo Center** (Italy). During the **Music Inside Rimini 2018**, with its 20% more visitors than previous editions, **Efesto** presented its [new product catalog](#) in a context of synthesis of all its products given the configuration of its own stand. The protagonists of the event were:

- **Aluminum trusses** in linear and circular variants;
- **Speedy Beta** stage table presented in the versions: white painted, transparent plexiglass and birch wood;
- Wide range of **aluminum hooks** different in shape and performance: Hanging hooks, Aliscaf, C hooks design with black or silver finish, safety cables steel;
- **Aluminum crowd barriers** in the linear version, with adjustable corner module and with gate access and cable module. The **Efesto** aluminum crowd barriers are the only structured with the exclusive **Fingers Save System**;
- **FreedomFast**, compact support for Led screen with two possibilities of applications : self-supporting and hanging support.

All informations on to products **Made in Italy** and present in the showcase of the **Efesto stand at MIR 2018** are online on our website (www.efestoproduction.com).
