Strong points

EFESTO designs and manufactures modular solutions for the realization of stages and podiums of small and large dimensions. Each product **EFESTO** differs in assurance and long life.

The table **EFESTO** stage is lightweight, modular, and with the long-term use does not buy play because the aluminum frame, with which it is made, is completely welded? The plans proposed by EFESTO stages are in two variants: *Speedy***BETA** stage and *Speedy***GAMMA** stage.

Speedy**BETA** stage

Modular platform, made in welded aluminum, for stages and podiums height adjustable, suitable for indoor and outdoor applications:

- Birch plywood, 12mm thick platform, anti skid top layer and fireproof, water resistant, for phenolic coating on both sides
- Aluminum frame with shocks protection board of wooden deck panel ;
- The legs are fitted to the bottom deck frame and are fixed in position by special joint
 - In the bottom of deck there is a quick connection system between the decks: **FastLock BETA**- is actuated by hexagonal key;
- Plastic corners of deck are removable. They make accessible the guides along the frame for mounting accessories(Railings, scale, etc.).

Speedy**GAMMA** stage

Modular platform of scaffolding , made in

welded aluminum, systems for stages and podiums , suitable for indoor and outdoor applications:

- Birch plywood, 12mm thick platform , anti skid top layer and fireproof, water resistant, for phenolic coating on both sides

- Aluminum frame with shocks protection board of wooden deck panel ;
- Plastic corners of deck panel are removable. They make accessible the guides along the frame for mounting accessories (Railings, scale, etc.);
- In the bottom of deck there is a quick connection system between the decks : **GAMMA FastLock** - is actuated by hexagonal key for a security and reliable positioning of stages.

More security, stability and durability with EFESTO!
