HIGH CAPACITY & BIG STABILITY!

The professional ladder for heavy duty!

Afrodite is the professional aluminium ladder at single-rail. Its robust and stable combined with the lightness of aluminum enable it to be the ideal ladder for heavy duty.

Afrodite has a large step with anti skid surface, the side bar anti-opening, reinforcements and foot anti-skid rubber that guarantee a better adherence to the surface.

Afrodite for its reliable structuring improves the freedom of movement of the operator.

Afrodite is available in different heights (from 3 to 14 steps). [Click here](#) for more information or [contact us!](#)
